# TOP DOCS 2010

The 171 Finest Physicians  
in Broward and Palm Beach counties

---

**W**hen it comes to the health of our family and friends, nothing but the best will do. That's why we've partnered yet again with leading research firm Castle Connolly to bring you the crème de la crème of Broward and Palm Beach counties' physicians. While you may recognize some familiar names from years past, keep an eye out for a brand-new category this year – plastic surgeons – for those of us in need of a little nip and tuck. And for anyone that's ever wondered exactly what's in the food we eat and how it affects us, we consulted area experts to get the low down on popular ingredients like high-fructose corn syrup, enriched white flour and partially hydrogenated oil. So whether you're a health nut or simply in need of a good doctor, look no further. We've got you covered.
