The Area's 160 Best Specialists

Ask any doctor. The best patient is the informed patient. And one of the best ways to start the informing process is with this list of top doctors. In cooperation with Castle Connolly Medical Ltd., the leading medical data research firm, we've narrowed the elite list of Palm Beach and Broward County doctors to 160 physicians in 33 commonly consulted specialties.

With such a saturated medical field overflowing with practitioners, finding the right doctor for you or your loved one can be confusing and frustrating. Rest assured – the doctors on this list have won the confidence of their own peers, earning the title “Top Doc.”
